

# ***SPICE RECESSED***

*Light fixture designed for indoor recessed applications.*

**SPICE** system introduces an innovative approach to lighting design and energy efficiency. With a variety of high quality optics to choose from, and the flexibility to choose the desired length and light output of each run.

**SPICE** has an impressive Max. Efficiency of 153lm/w (4000K/80CRI) and wide range of optics to suite most design needs. Units are seamlessly joined to create a continues lighting effect.

**SPICE** is designed for Indoor applications. Its small size makes it ideal for shops, hotels, public buildings, museums etc. It is available in 1 or 2 channels and wide range of color temperatures.

**SPICE RECESSED** is a Ceiling recessed Light fixture for installations into drywall or wood panels. It comes in 4 different lengths and is cleverly designed to maintain output regardless of the number of units connected together making large scale system installation simple and very cost effective.

		<b>CRI</b>		<b>lm</b>	<b>lm/w</b>				
52mm	IP 20	70-90 CRI	35W/Meter	5360lm	153 lm/W	Mide / Wide / OV / WG	2200 - 6500K	Monochrom	RAL / Anodize

## OUTPUT

LED System	Luxeon 3030 2D Mid Power LED
Intensity	5360 Lumen per Meter / CRI 80 / 4000K / 700mA
Channel Range	1 / 2 Channel
Color Range	2200K / 2700K / 3000K / 3500K / 4000K / 5000K / 5700K / 6500K
Optical System	Double Asymmetric (for aisle and shelf lighting) / Asymmetric (WG) / Asymmetric (WW) / Oval 93+34 / Oval 57+114 / Oval 88+108

## ELECTRICAL

Control	External constant current driver
Input Voltage	42V
Consumption	35W Per Meter
Max LED's	56 LEDs @ 114cm
Efficiency LM/W	153 LM/M
Connection	2 * 20 AWG

## ENVIRONMENTAL

IP Rating	IP20 / IP43
Working Temp.	-20°C ~ 40°C / -4°F ~ 104°F
Storage Temp.	-20°C ~ 50°C / -4°F ~ 122°F

## PHYSICAL

Size	Variable * H31mm * W59mm cutout w52mm
Housing	Aluminum Anodize
